

## COVID-19 Emergency Support Framework

# Engagement and support call Summary Record

### Luton Friendship Homecarers

Location / Core Service address	Date
Luton Friendship Home Carers Limited 92 Hastings Street , LU1 5BH Luton	27/05/2020

Dear Luton Friendship Home Carers Limited,

The Care Quality Commission is not routinely inspecting services during the COVID-19 pandemic. We are maintaining contact with providers through existing monitoring arrangements and engagement and support calls covering four assessment areas:

- Safe Care and Treatment
- Staffing arrangements
- Protection from Abuse
- Assurance Processes, Monitoring and Risk Management

This Summary Record outlines what we found during the engagement and support call shown above, using standard sentences and an overall summary.

We have assessed that you are managing the impact of the COVID-19 pandemic at the above service. The overall summary includes information about the internal and external stresses you are currently experiencing, how they are being managed, and sources of support that are available.

Emergency Support Framework calls and other monitoring activity are not inspections. Summary Records are not inspection reports. Summary Records are not published on our website.

## Assessment Area 1

### Safe care and treatment

---

**1.1 Had risks related to infection prevention and control, including in relation to COVID-19, been assessed and managed?**

---

**Yes** There were systems to assess and respond to risks regarding infection prevention and control, including those associated with COVID-19.

---

---

**1.2 Were there sufficient quantities of the right equipment to help the provider manage the impact of COVID-19?**

---

**Yes** Essential equipment, such as personal protective equipment, was available in sufficient quantities to help you manage the impact of COVID-19.

---

---

**1.3 Was the environment suitable to containing an outbreak?**

---

**Yes** You had taken steps to ensure the environment was as effective as possible in containing an outbreak of COVID-19.

---

---

**1.4 Were systems clear and accessible to staff, service users and any visitors to the service?**

---

**Yes** Systems to ensure the environment were conducive to containing an outbreak of COVID-19 were clear and accessible to people using the service.

---

---

**1.5 Were medicines managed effectively?**

---

**Yes** Service users' medicines were effectively managed, despite the increased pressures associated with COVID-19.

---

---

**1.6 Had risk management systems been able to support the assessment of both existing and COVID-19 related risks?**

---

**Yes** Systems enabled the continued management of known risks, as well as enabling the provider to respond to new and emerging risks, including those posed by COVID-19.

---

## Assessment Area 2

### Staffing arrangements

---

**2.1 Were there enough suitable staff to provide safe care and treatment in a dignified and respectful way during the Covid-19 pandemic?**

---

**Yes**            There were enough suitably skilled staff to provide people with safe care in a respectful and dignified way during the Covid-19 pandemic.

---

---

**2.2 Were there realistic and workable plans for managing staffing levels if the pandemic leads to shortfalls and emergencies?**

---

**Yes**            There were realistic and workable contingency plans for staffing shortfalls and emergencies during the COVID-19 pandemic.

---

## Assessment Area 3

### Protection from abuse

---

**3.1 Were people using the service being protected from abuse, neglect and discrimination?**

---

**Yes**            People were being safeguarded from abuse, harassment and discrimination.

---

---

**3.2 Had the provider been able to properly manage any safeguarding incidents or concerns during the pandemic?**

---

**Yes**            Action had been taken to properly respond to incidents, alerts or potential safeguarding incidents at the service.

---

## Assessment Area 4

### Assurance processes, monitoring and risk management

---

**4.1 Had the provider been able to take action to protect the health, safety and wellbeing of staff?**

---

**Yes** Staff health, safety and wellbeing were protected despite the increased pressures associated with COVID-19.

---

---

**4.2 Had the provider been able to implement effective systems to monitor and react to the overall quality and safety of care**

---

**Yes** There were effective systems to monitor the overall quality and safety of care being provided at the service during the COVID19 pandemic.

---

---

**4.3 Is the provider able to support staff to raise concerns during the pandemic?**

---

**Yes** Staff were able to raise concerns and were supported to speak up during the pandemic.

---

---

**4.4 Had care and treatment provided to people being sufficiently recorded during the Covid-19 pandemic?**

---

**Yes** Care and treatment provided to people is being sufficiently recorded during the Covid-19 pandemic.

---

---

**4.5 Had the provider been able to work effectively with system partners when care and treatment is commissioned, shared or transferred?**

---

**Yes** Working arrangements and information sharing with system partners during the Covid-19 pandemic are effective.

---

### Overall summary

Currently have 52 clients supporting a lot of people with end of life care and 24-hour care packages. One client has recently died in hospital with Covid-19 confirmed as positive. Discussed completing death notification and I agree to send the link to this and notifications generally. Discussed the importance of being aware of these types of requirements while covering for the registered manager who is on long term

absence at the moment. Staff are being supported with managing their well-being and anxieties by way of regular telephone calls and a WhatsApp group. Agreed to also send the links for staff well-being support groups as an extra support resource. Staff training continues through use of online training at the moment. They hold daily catch up calls to discuss every client and any concerns as well as staff issues. This is used as a quality assurance measurement as the managers audit has not been completed since lockdown. Discussed the importance of ensuring manager oversight of quality is still in place in the RM's absence. Health conditions and medicines being managed well with no concerns and able to access all equipment and health and social care required. Discussed the lesson they have learnt about continuing to encourage people to make their end of life wishes known. Staff are following guidance for use of PPE and they now have plenty of stock. They have used the PHE video and posters for correct donning and doffing awareness for staff.
